“Maximize the attempts to optimize the probability.”

Education

Chosun University

B.S. IN ARTIFICIAL INTELLIGENCE ENGINEERING

- Total GPA: 3.76/4.5 (Major GPA: 3.68/4.5)

Gwangju, S.Korea

Mar. 2021 - Feb. 2027 (Expected)

LG AI Research

LG AIMERS 8TH TRAINEE (AI TALENT TRAINING PROGRAM)

- Completed an intensive curriculum covering advanced machine learning and deep learning theories.
- Participated in the LG Aimers Hackathon, applying LG EXAONE to Quantization challenges.

Online

Jan. 2026

University of Guam

SHORT-TERM EXCHANGE PROGRAM (ENGLISH IMMERSION)

- Completed an intensive English language course, enhancing cross-cultural communication skills and global awareness.

Guam, U.S.A.

Jan. 2026

Smart Media Academy (Smart Talent Development Center)

AIoT-BASED INTELLIGENT CONTROL SERVICE COURSE (840 HOURS)

- Completed intensive training on AI-based intelligent control systems, IoT integration, and full-stack development.
- Awarded 'Academic Excellence' for outstanding performance in database management and project architecture.

Gwangju, S.Korea

Feb. 2024 - Aug. 2024

Internships

Sensor Fusion Based Artificial Intelligence LAB (SFAI)

UNDERGRADUATE RESEARCH

- Researched 3D Gaussian Splatting (3DGS) Applications
- Participated in research paper seminars.

Gwangju, S.Korea

Sep. 2024 - Present

Project Experience

3DGS-based Flood-prone Area Visualization Platform

TEAM LEADER, PRESENTER

- Led the development of a real-time 3D disaster response platform using 3D Gaussian Splatting (3DGS), winning 1st Place at a national competition and the KEPKO KDN Award.
- Designed a robust data pipeline integrating AWS S3 and a Flask server for the real-time aggregation of rainfall data and citizen reports.
- Implemented an automated de-identification system using FFmpeg to mask sensitive information (faces, license plates), ensuring data privacy while maintaining 3D rendering quality.

Gwangju, S.Korea

Sep. 2025 - Nov. 2025

Industrial Aggregate Image Classification Model (Dacon)

TEAM LEADER

- Secured 1st Place (Grand Prize) by developing a highly accurate CNN-ViT ensemble model for industrial aggregate classification.
- Overcame severe class imbalance and train-test domain gaps by engineering a robust data pipeline with WeightedRandomSampler and strategic augmentations like RandomResizedCrop.
- Optimized inference performance to reach a Macro F1-Score of 0.932 through a Soft Voting ensemble and Test-Time Augmentation (TTA) over 200+ experimental iterations.

Online

Jan. 2026 - Feb. 2026

RestormerGS: Motion-Blur Robust 3D Reconstruction via Gaussian Splatting

UNDERGRADUATE RESEARCHER & FIRST AUTHOR

- Proposed a novel 3D reconstruction pipeline integrating Restormer-based deblurring with BAD-Gaussians to resolve motion-blur degradation.
- Improved Structure from Motion (SfM) feature matching success rates by 18% on highly blurred datasets, establishing robust camera pose estimation.
- Achieved state-of-the-art quantitative results, improving PSNR by 51% and LPIPS by 55%, submitting the findings to the ITS Undergraduate Paper Competition.

Gwangju, S.Korea

Dec. 2025

LLM-based SW Education Platform

Gwangju, S.Korea & Vientiane, Laos

FRONT-END DEVELOPER & POSTER PRESENTER

Sep. 2024 - Dec. 2024

- Designed and engineered the interactive frontend architecture utilizing SvelteKit and TypeScript, significantly enhancing rendering speed and type safety.
- Implemented a secure, serverless in-browser code execution environment using WebAssembly (Wasm) for real-time, isolated code evaluation.
- Designed a scalable relational database schema using PostgreSQL and Prisma ORM to seamlessly manage complex associations between LLM-generated educational content and user data.
- Selected to present a research poster on the system's architecture and educational impact at the SMA 2024 International Conference in Laos.

Extracurricular Activity

Chosun University

Jeolla Province, S.Korea

STUDENT AMBASSADOR FOR AI ENGINEERING (JEONGONG-NARAE)

Jun. 2025 - Dec. 2025

- Traveled across the Jeolla region to visit middle and high schools, actively promoting the university and introducing the Artificial Intelligence Engineering department.
- Delivered engaging presentations and mentoring sessions to prospective students, explaining core AI concepts and career paths to inspire their interest in the AI field.

Gwangju Institute of Information Education

Gwangju, S.Korea

UNIVERSITY STUDENT MENTOR

Jul. 2023

- Provided mentoring and technical guidance to students participating in IT and software education programs.
- Assisted students in developing computational thinking and practical problem-solving skills.

Awards & Honors

AWARDS

2025.11	2nd Place , 2025 Chosun University IT Festival Idea Contest	Gwangju, S.Korea
2025.11	Encouragement Award , KEPCO KDN Energy Valley Software Competition	Naju, S.Korea
2025.09	1st Place , Honam ICT Coding Challenge (JICA Director's Award)	Jeonju, S.Korea
2025.06	1st Place , Construction Gravel Classification AI Competition	Dacon
2024.12	3rd Place , 2024 Chosun University IT Festival Idea Contest	Gwangju, S.Korea
2024.08	Excellence Award , Practical Capability Project, Smart Human Resource Development	Gwangju, S.Korea
2024.04	Academic Excellence , Database Course, Smart Human Resource Development	Gwangju, S.Korea
2024.04	Excellence Award , Basic Capability Project, Smart Human Resource Development	Gwangju, S.Korea

HONORS

2026	Baekak Academic Merit Scholarship , Awarded for academic excellence	Chosun University
2025	Pride CSU Seoseok Scholarship , Awarded to students with high achievements throughout the year	Chosun University
2025	Baekak Academic Merit Scholarship , Awarded for academic excellence	Chosun University
2023	Baekak Academic Merit Scholarship , Awarded for academic excellence	Chosun University

Skills

Programming Languages	Python, JavaScript, TypeScript, C/C++
AI & Machine Learning	PyTorch, scikit-learn, Pandas, NumPy
Cloud & DevOps	Git, Amazon Web Services (AWS)
Web / Front-end	React, Svelte, HTML/CSS

Others

English Proficiency

2024.11 **TOEIC Speaking - Intermediate High (140)**, ETS

Certifications

2025.11 **TOPCIT Level 3 (428)**, IITP
2024.06 **ADsP**, KData
